SECTION-C

CASE STUDY

Q15. Read the case carefully and answer the questions.

Indian Institute of Materials Management (IIMM) is a forum for purchase and related employees and they have frequent meetings, seminars and annual conventions to share knowledge. In one of their annual conventions the topic was implementation of JIT for competitive advantages. Leading personalities of the Indian industries talked lots of positive points and benefits due to the JIT purchase and JIT manufacturing methods. Many presented calculations and statistics of savings in costs and time and how it helps in reduce the price of the end products and hence competitive advantage. Most of the audience were impressed about the theory and thought of practical application in their respective companies. However, few of the executive participants were more worried about practice and less interested in idealistic theories. One Mr. Jitendra Joshi of LML's Bangalore office was impressed. He has been arranging Engine Block castings, tyre tube sets, machined components, speedometers etc. from southern region to LML, Kanpur Unit. He has 15 years' of experience in facing lots of problems in arranging the long distance supplies. He mustered courage to get up and ask few questions against the JIT and summary of question to Mr. Sudhakar (the speaker) were as follows: Mr. Joshi said JIT cannot be fully implementable in Indian conditions due to following genuine constraints. (a) The inter-state disputes like 'Kaveri Dispute', 'Border disputes' at times disturb the arrangements. (b) On and off terrorism, political agitations, holidays due to
